CORRECTED SUBMISSION OF FOREIGN PRIORITY APPLICATION

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

On October 20, 1999, applicants, through their undersigned attorneys, submitted a certified copy of the priority application for which foreign priority benefits are claimed for the above-identified U.S. patent application under 36 USC § 119. The prior submission inadvertently referred to providing a certified copy of "International Application No. PCT/EP97/05417". The submission should have referred to filing of a certified copy of European Patent Application No. 96309084.0 for which foreign priority benefits are claimed.

While the certified copy of European Patent Application No. 96309084.0 was forwarded to the PTO on October 20, 1999, the submission form inadvertently referred to the International Application number rather than the European Patent Application number.

It is requested that this letter be made of record in the subject application.

Very truly yours,

WELSH & KATZ, LTD.
